SANJAY K P

DATABASE ADMINISTRATOR

✉ sanajayanand683@gmail.com   ☎ 6282775004   📍 *Kizhkke Puravil, Calicut,Kerala, India*

Efficient administrator eager to leverage knowledge in cloud-based database management systems. Skilled in database security, backup and recovery with good understanding of automation and containerization tools. Team-oriented with strong work ethic.

Experience

Oracle Database Administrator at Tata Consultancy services   *Jan 2022 - Present*

- Implemented comprehensive data retention policies that met regulatory requirements while minimizing storage costs.
- Streamlined backup and recovery processes, enhancing overall system stability and availability.
- Implemented capacity planning strategies to accommodate growth in data volume without compromising system performance or reliability.
- Developed comprehensive documentation on database architecture, simplifying future upgrades and maintenance tasks.
- Reduced downtime by proactively monitoring and addressing potential issues with the Oracle Database system.
- Worked on 12.2 and 12.2 EBS Application Architecture.
- Worked on 12.2 adop patching. Performed cloning activities from the Production database to the Development / Test database in both 12.2 and 12.2 Environments

Projects

Aviva

.

- In Aviva, I managed the production and non-production databases as an Oracle Application DBA.
- I worked on the Oracle security patching and AD/TXK patching on the Aviva databases.
- Successfully upgraded EBS from version 12.2.11 to 12.2.13, improving Aviva system performance and user experience.

.

Education

Masters in computer science   *2019-2021*

- Pondicherry University
- Percentage: 81%

Bachelor's in computer science   *2016-2019*

- Collage of applied science
- Percentage: 70%

Skills

- Database management
- Coding
- Security System
- Web dev
- Problem-solving
- Linux shell scripting
- Time Management
- Python
